

# Mercari Euro Hack Guidelines

20181020

mercari

# The Challenge

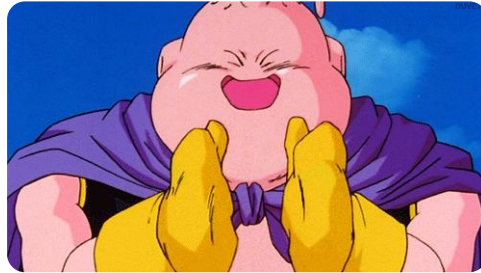

- **Technical solutions** to the challenges in sharing economy! OR
- **Technical solutions** to improve the current sharing economy

**Technical Solutions** -> Not just ideas, business models or operational solutions

# Restrictions

There are none! - Just use common sense

# Rules

- Use the code that you brought with you
  - Though **you would be evaluated on what new you create here**
- Consult any website/book/openly available information
  - **Be mindful of plagiarism**
- Use **any devices** and **open source libraries**
- Build weird stuff or something with **real world application** (we hope you do)
- Keep **updating your Github repo** frequently to get mentors' advice
- **Forming teams**: feel free to mingle & form teams in first 30 mins- inform the organizers once you decide

# Forming Teams

- For those who want to form teams
- **30 mins** after this session to walk around and talk to other teams
- If you make any changes, provide the **new team details** (members, team names), **idea** you'll work on and the **github repo** link by **12:00**
- Feel free to come to me or any organizers to connect you to a team

# Judgement

Judgement criteria is:

- **Level of technical difficulty to develop**
- **Usability of system/prototype** attributed to **system design and polish**
- **Originality of idea**
- **Usefulness & Impact**

Your demos, submitted code & interaction with mentors will be considered

- Demos: 3 mins + 2 mins Q&A
- Free to use any visuals you want but we suggest to go light on the slides and focus more on **demonstrating your solution.**

# Housekeeping

- Wifi password
- Restrooms
- Snacks
- Communication (Gitter channel)
- Respect diversity, ideas, opinions - be helpful and courteous
- Anyone seen hurting someone physically or otherwise would be asked to leave with their team

Any Questions?
